Sentinel Aviation was founded by Roland Dangerfield, a former British Army Officer (18 Years) turned Private Jet Pilot (12 Years), flying to over 80 countries and some 200 plus destinations carrying Royal Families, Politicians, Diplomats, personalities of the Sports, Film, Television and Music industries.

As a passionate Field Sportsman, who fishes and shoots regularly in Scotland, Roland's company specialises in private jet and helicopter charters for Field Sports men and women pursuing fur, feather and fin within the UK, Europe and of course internationally.

Sentinel Aviation, in particular, arranges private travel with shotguns and firearms and can also arrange international travel visas. Since Brexit, travel with Shotguns and Firearms has become tortuous. Sentinel Aviation will liaise with embassies and international hosts for letters of invitation to ensure seamless travel to your final destination

Roland Dangerfield: "The majority of our clients come to us through word of mouth. All contact with Sentinel Aviation is treated as discreet and confidential and we will never use social media to publicise your activities".
