James Garfield-Davies – Commercial Director

James Garfield-Davies is a lifelong aviation professional.

James also has a background in Banking and has served as an Army Officer in the Territorial Army. His aviation career began with him flying commercially operated Airbus A320 aircraft, before transferring to the Business/Corporate and Private side of aviation, initially flying a privately operated A319 Airbus Corporate Jet.

Hugely experienced in working with Middle Eastern clients, James has also flown the Falcon 900EX Classic, the Challenger 604 and 605 and the ultra long range Global Express Vision aircraft. James has an eye for detail to Aviation Operations as well as the complex financial transactions within Consultancy Projects, aircraft sales and purchases.

Aircraft Charter

## Fractional Ownership

Fractional Ownership Programmes afford you the experience and advantages of aircraft ownership without the massive upfront capital requirements, responsibility of training and managing a pilot and operations crew. We help you find the right programme.

## Block of Hours

An alternative to fractional ownership is the purchase of pre-paid hours for a private jet charter at an agreed price. This requires an upfront deposit is required, however it provides our clients with a fixed price for a private jet rental. Depending on your requirements, this approach can result in a lower private jet charter cost.

Aircraft Charter

## Lease Hours

Aircraft Lease programmes are another alternative to Fractional Ownership. Perfect for personal or business jet travellers who fly 50 or more hours per year, but with a different payment structure for those who do not want an initial capital outlay. We help you find the most manageable costs for the term of your private jet lease.

## Private Jet Card

Jet Cards give you a highly personalised service for your private jet travel – fixed hourly rates, guaranteed availability, and preferred booking terms every time you fly. With the right card, you can enjoy priority access to the programme of your choice.

## Travel with Shotguns & Firearms

You're a responsible gun owner, but you're not sure if you can bring your firearm on your next private jet charter flight? Since BREXIT travel with shotguns and firearms has become more problematic. Sentinel Aviation will work with you, your departure and arrival airports and your ultimate destination to ensure that travel is as smooth as possible.

## Travelling with Pets

Flying with pets on commercial airlines is a huge hassle. Flying with pets on private jets is the perfect solution for those who want to ensure their pet's safety and comfort while travelling. With private jet companies allowing pets on board, there's no need to worry about breaking any rules or regulations – just sit back, relax, and enjoy the flight!
