The JetStream

ISSUE 22 | Sentinel Newsletter

Sentinel Aviation organises private jet charters across the UK and worldwide. Founded by former business jet pilots, Sentinel Aviation is the leading choice for individuals, businesses and multi-family offices seeking a discrete, all-encompassing private charter service.

[Get in Touch](#)

This time last year, we signed a contract to charter a Private VIP Boeing 767. The past year has been a mix of emotions, unadulterated stress, joy and exceptional pride in our work. A huge thank you to our clients for trusting in us! Here are some of the aircraft we've chartered for our clients in the last 12 months.

Need Help Getting There?

Comparing the Piaggio Avanti Turboprop and the Citation Mustang Light Jet

Destination and distance are the first questions asked when a private jet charter enquiry arrives on the desk at Sentinel Aviation. If the destination is within 2,000 nautical miles then the answer may well be from our Turboprop and Light Jet Range of charter aircraft.

Charter Aircraft of the Month – Gulfstream 280

The Gulfstream G280 leads the super-midsize jet market for good reason. The G280 is faster and more fuel efficient than its competitors and has an endurance of 6hrs.

A blend of exceptional performance with luxurious comfort, one of its most compelling features is its impressive range of up to 3,600 nautical miles, allowing for non-stop flights from New York to London or Los Angeles to Honolulu. This capability makes it an excellent choice for transcontinental and transatlantic journeys.

Its state-of-the-art avionics suite, including the PlaneView280 cockpit, enhances safety and operational efficiency, making it a favourite among our pilots.

The cabin of the G280 is designed with passenger comfort in mind. It features a spacious and quiet environment with large panoramic windows that flood the cabin with natural light. The seats are fully adjustable and can be converted into beds for long-haul flights. Advanced cabin management and entertainment systems ensure a seamless and enjoyable experience, allowing passengers to control lighting, temperature, and entertainment options with ease.

/ Maximum Passengers: 10

/ Maximum Operating Mach: 0.85

/ Baggage: 10 medium bags

/ Maximum Range: 3,600 Nm
